# South Ossett Infants' Academy

## Foundation Stage Newsletter Term Spring 2

We have had another lovely and very busy half term in Foundation Stage. Upper Foundation Stage had a fantastic trip to the farm, we all enjoyed taking part in some orienteering, and we have been learning about the life cycle of a butterfly. We have been observing the caterpillars in class very carefully, watching them grow and change. The children have also been learning about Easter, and the signs of Spring. They have created some lovely Spring artwork.

Next half term we will be learning about '**Our World**'. The children will be learning how there are different countries around the world, and some similarities and difference between them and where we live.

*After the holidays please could you send in a photograph (either printed out or by email to admin@southossett.accordmat.org) of your child on holiday or on a day trip, this could be in this country or abroad, so we can talk about all the different places we have been.*

**If any parents or family members have lived in a different country and would be happy to come and speak to the children about it, please let us know, we would really appreciate it.**

We hope you all have a lovely Easter holiday! Thank you for your continued support.

**The Foundation Stage Team.**
