

South Ossett News

South Ossett Infants Academy

It's been another busy week at South Ossett Infants Academy with lots of great learning taking place in and out of the classroom. Year 1 took part in their 'Toys Through Time Workshop' where they looked at toys used in the past and compared them to toys that the children have now. They also got to learn about a typical school day in the Victorian Era. They dressed up in Victorian uniforms and experienced writing on slate and reciting their times tables. The children had a great time and are happy they are not Victorian children! The Year 2 children had a fantastic time at the Yorkshire Wildlife Park on Monday. They had the opportunity to see, hold and learn about a range of different animals and their habitats. Their behaviour was impeccable and they were a credit to the school.

Our certificate winners this week:

Year Group	Star of the Week	Science	VIP
LF	Archie	Edie	
UF	Olivia	Oscar	Nathan
Y1	Etta	Orla	Bobby
Y2	Harper	Julia	Mabel

Attendance this week:

Whole school 96.7%

The class with the best attendance this week is
Year 2 with 99%

Happy Birthday this week to:

Violet
Rowan

Upcoming Dates & Activities

11th March	Easter raffle available to purchase on MCAS
26th March	Easter raffle drawn
27th March	Last Day of Spring 2 Term
13th April	School opens for Summer 1 Term
20th April	Y2 Big Build
4th May	Bank Holiday

Useful Information

Just a reminder that all school grounds are strictly smoke-free and vape-free. We would politely ask that this also applies to directly outside the school gates.

Year 1 and Year 2 children will be visiting the church in the final week of term to learn about the Easter story.

Stay and Play sessions will be taking place for all LF NEW starters to start after Easter.

After Easter, Year 2 children will be participating in Big Build. This is an exciting opportunity for our children to engage with engineers from the national company Jacobs through which they will explore how topics we cover such as maths and science are used in the real world.

Through four sessions to be held throughout the Spring and Summer terms, the children will learn about how the world around them is built, from bridges and roads to buildings and super structures. They will explore health and safety, design, materials and their properties and end with the opportunity to work as a team to design and build their own model bridge.
